The console collection features four unique styles in three sizes that have been thoughtfully designed to add a touch of personality and character to any home. They work well as accent or entertainment cabinets with adjustable shelving and built in wire management.

**Komodo** An abstract string art pattern is embossed on bright white doors and encased with a slender wood finish frame. Push-latch closures eliminate the need for hardware and keep the aesthetic clean and modern.

**Stellar** The wood finish frame surrounds bright white doors with a concave geometric design adding dimension and visual interest to any space.
